Dear Mr. Greenwood:

Thank you for being my reference for the Code X Legal Fellowship opportunity at Stanford University.

Thanks for asking for the reference letters I collected--they far predate when I was involved in the work with legal computer applications, XML or rule-based programming and simply speak to my abilities in general.

And best wishes for all your work on identity trust and management, as well as for a good holiday season.

Sincerely yours,

Laurence L. Leff, Ph.D.
Associate Professor of Computer Science
